

I am writing to let you know that K-Love and Airl radio stations are essential to my family. They help to encourage us daily. I have four young children, the oldest is six years old, and I do not want them hearing vulgar language or violent material. I believe that this action would eliminate any positive radio output and would be detrimental to the area. Our area is highly christian population and I believe these stations give us the support we need to follow our beliefs.
